

BCL632

DOLPHIN PANEL MOUNTED INFRARED SOAP DISPENSER

- › Electronic soap dispenser activated by an infrared sensor. When the user places his hand within the sensor range, the soap dispenser delivers the soap.
- › Soap Drop Portions: 0.7-0.9ml per drop portion (this is adjustable and depends on viscosity of soap)
- › High quality polished chrome or brushed nickel-finish brass construction
- › Soap Container – 1,000ml
- › 2 year guarantee
- › Powered by 12v Transformer
- › Wall Mounted
- › Designed to match Dolphin Blue **DB400** and **DB1400** range taps
- › Important: please contact Dolphin Technical Helpline 01424 202224 /consult fitting instructions for design guidance
- › Settings can be adjusted with a remote control (**DB52**)
- › Power connections: soap dispenser: female / power source: male
- › Draws maximum current of 0.5A at sensor activation
- › If you require a multifeed version, please specify **BCL632C-MF** / **BCL632S-2-MF** so it can be used with the top fill Multifeed system **BC6003TF**

LENGTH	150 MM
DIAMETER	28 MM
CAPACITY	1000 ML
